Manufacturing Purchasing Manager Index (PMI) rose to 58.9 from September, the highest reading since May 2018. E-way bills, a key indicator of goods movement, logged 64.1 million in October; the system was rolled out two years ago.

The economy has done better than had been anticipated. Experts and economists said, expressing hope the economy would be back to normal soon.

International Monetary Fund had forecast a growth of 7.5% for India next year, which is the best so far for any major

economy, Bajaj said.

He said the number of Covid-19 cases was witnessing a downward-trend - fatality rate is down, positivity rate is down, and total numbers are down. "So, if in case we keep taking precautions in the coming winter months, and especially during festival season, I think we should be in better times," he said.
