### Chairman's Message

Dear Shareholder,

The global economic scenario in 2013-14 remained challenging though there were signs of recovery gaining some momentum in the second half; however they seemed to be uneven. While their recovery was mainly driven by strengthening of developed and advanced economies, growth has not translated fully into benefits for emerging and developing countries. Though banks are much stronger than they were a few years back and economies are no longer concerned about the debt problem, credit issues still exist. Recent geopolitical issues, such as the war in Syria, trouble in Egypt, problems in Portugal and new risks emanating from the Ukrainian crisis, quicker than expected withdrawal from quantitative easing by the U.S. and weakening sovereign financial position in Euro Zone are some of the key challenges facing global economic recovery.

On the social front, health and wellness awareness is increasing by the day resulting in changing preferences of the tobacco consumers. Technological advancements and the wellness trends are leading to companies developing next generation products aimed at harm reduction.

What does this mean for us in our focused markets namely Central and South America, Middle East and Africa, the ASEAN region and here in India? As per the latest IMF estimates relatively stronger growth is expected in almost all of these markets due to exports and recovery in domestic demand. This should bode well for our products being sold in these markets. We are focusing on strengthening our relationships as well as developing suitable brands for these markets.

India has just concluded the world's largest elections in May, 2014. After 30 years, a stable government has come to power, where coalition compulsions will not be used as a bargaining plank for myriad political motivations. Our heartiest wishes to the new government. This government has further elevated general expectations of superior governance, greater clarity and certainty in the policy dispensation, pick up in investment activity by fast track clearances on long stalled large scale projects and most importantly, revival of business confidence. Though there are some key downside risks going forward such as high inflation, rising oil prices and weak monsoon, our political leadership is hopeful of tackling them in so far it appears from the recent pronouncements. Thus, we hope to participate in delivery of favorable outcomes to the perceived objectives of increasing per capital income, reducing income disparities and alleviating poverty.

With taxes already hiked as the government embarks on controlling the consumption of tobacco products and consumer awareness likely to further increase for improving health standards, your Company is looking to strike a fine balance between the twin objectives of business growth and legal compliance.

We continue to look forward to achieving all shareholder objectives and advancing our standards, through the continued trust of our consumers, partners, shareholders, well-wishers and employees. I would like to express my gratitude to you all for your incessant support in all our endeavors.

With best wishes and warm regards,

R. A. Shah

### President's Message

Dear Shareholder,

I'm pleased to share with you the results of our resurgence in the financial year 2013-14. Your Company delivered a healthy topline of Rs. 4,196 crore with a growth of 15.2 per cent over last year, reflecting its strong fundamentals and business foundation. Despite challenges faced by the economy, your Company bounced back to deliver a profit before tax at Rs. 255 crore registering a 7.6 per cent growth despite having incurred huge one-time cost for closing down manufacturing operations at its plant in Andheri, Mumbai. I am also pleased to announce that the Board has yet again recommended a dividend of Rs. 40 per share for the said year.

During the year your Company continued its focus on increasing the width of its operations, in terms of growing the non-tobacco business and expanding international operations. I am pleased to inform you that our other businesses- non-cigarette and non-tobacco segment – witnessed a revenue growth of 31 per cent during the year to reach Rs. 270 crore.

I regret to inform you that we suffered a huge loss during the year in terms of the demise of one of our vastly experienced and able leaders and my dear friend Mr. S. Seru after prolonged illness, triggering a need for change in management and organisational structure.

With the organisational changes in place, your Company is going to see enhanced consumer orientation along with high focus on retail and market facing capabilities in the current financial year. The new management team is also working on deep rooting your Company's open door and performance driven culture, to further smoothen its ride on the growth path.

Going forward, your Company will continue to expand its international operations through alliances, tie-ups and collaborations for entry to new markets – especially in developing markets of Latin America, Middle East and Africa, expansion of portfolio offerings and investment in building own brands.

Further, the envisioned growth in domestic market share will be attempted to be delivered through your Company's professed commitment to developing innovative and contemporary product offerings across all categories with the clear objective of harm reduction. These expansion initiatives will be backed by investments on one hand in enhancing your Company's manufacturing capability to meet the international quality standards and on other hand in upgrading the people skills.

The present economic environment is quite challenging and we are passing through trying times. All of us are hoping for 'achche din' now that the new government is in place at the centre with a clear mandate. Though the budgetary proposals unveiled by the Honorable Finance Minister recently do not augur too well for the cigarette business, your Company will continue to strive hard to bring about sustainable growth under all odds.

To sum up, I would like to take this opportunity to thank all the shareholders and stakeholders for their never ending trust in the leadership team of the Company. I sincerely solicit your continued support to our plans to effectively tackle challenges en route the growth phase.

Warm regards,

K. K. Modi

## DIRECTORS' REPORT & MANAGEMENT DISCUSSION AND ANALYSIS

Your Directors have pleasure in presenting the Seventy-seventh Annual Report on the business and operations of the Company together with the Audited Accounts for the financial year ended March 31, 2014.

### ECONOMIC ENVIRONMENT

The year under review, started with a cautious sentiment and a difficult time for the global economic activity. However, with things getting under control the business situation improved gradually. Major economic zones saw divergent growth during the year. While the US economy strengthened, Euro Zone saw a turbulent economic phase. On the other hand, developing economies such as Latin America, Middle East and Africa witnessed a sluggish growth.

The domestic economy continued on its challenging trajectory, with growth at decadal low. The domestic industrial sector saw persistent slowdown, despite measures being taken by the government. The currency as well as demand was under pressure, compounded by high inflation and steepening input costs.

With recovery on the anvil and favourable economic dynamics, the domestic environment is slowly changing. Demand is expected to resurge, as fiscal conditions improve and developed economies rebound. However, geopolitical risks in other developing economies have increased and will be important to keep an eye on.

While global growth is projected to improve from 3.3 per cent in 2013-14 to 3.6 per cent, growth in advanced economies is expected to lag the global growth at 2 per cent. Fiscal tightening and accommodative monetary conditions are likely to be the key contributing factors. Growth in the developing economies is projected to be in the 5% range in 2014-15. With geopolitical risks withering down in the developing nations, performance of your Company's export division is further likely to benefit.

### TOBACCO INDUSTRY

Globally, the tobacco industry has grown by around 3 per cent in value terms to USD 783 billion in FY14. The global cigarette volumes have declined by 1 per cent in FY14, whereas the value has grown by 3 per cent. Increasing taxes & widening regulations are impeding growth of cigarette volumes globally.

The Indian tobacco industry is estimated to be around USD 13 billion in FY14. Cigarette constitute 61 per cent of the total value, followed by Bidi (23 per cent) & Chewing tobacco (16 per cent).

Indian cigarette market has shown a decline of around 3 per cent in volume, impacted by pricing pressure and growing health concerns. However, the price hikes taken by the industry have resulted in a value growth of 14 per cent over the previous year. The 64mm segment, aided by favourable taxation, has grown by two & half times in volume terms as compared to last year. Premiumisation trend has continued with growing Kings Segment (KSFT), which now accounts for more than 15 per cent of the industry's volumes. The growth in King Size has been driven by Lights/Milds variants due to the perception of reduced harm. However, the Regular Size Filter (RSFT) category, which forms the body of the industry has lost industry's share from 76.9 per cent in FY13 to 66.3 per cent in FY14. There has been increased up-trading from Premium RSFT to KSFT segment this year, due to reduced price difference. Also, the industry continues to face the challenge of illicit trade. With growing health concerns, consumers are also exploring new generation products such as e-cigarettes, nicotine gums, etc.

Indian leaf tobacco exports were higher as compared to last year, both in volume and value terms.

### Regulation and Taxation

With global tobacco regulatory environment becoming stricter by the day, businesses are facing a daunting task of growing top-line and bottom-line. In India too, over the past few years the Union

—INDIA LIMITED—

government has been inflicting steep excise hikes on the Cigarette industry, along with State governments further imposing high VAT at varying rates. In the recently presented budget, excise duty has further been hiked on various segments, ranging between 11 to 72 per cent. Varying VAT rates have led to differential pricing, growth in the illicit trade and inducing a shift to non-standard forms of tobacco. While the 64mm segment helped the industry to counter illicit trade to some extent, the recently announced disproportionate excise hike of 72 per cent for the segment is likely to exacerbate the problem of illicit trade.

Though your Company is committed to abide by the regulations as a responsible corporate, we eagerly await a unified taxation system in terms of GST as it is expected to benefit both the industry and consumers by rationalizing the differential pricing and thus curbing sales of illicit products.

## SEGMENTWISE PERFORMANCE IN 2013-2014

### Cigarettes

The domestic cigarette industry had to contend with increased central and state taxes for the second year in succession. Though your Company has witnessed decline in volume, it still was able to register a healthy growth of 11.7% in terms of sales income, from Rs. 2,920 crore previous year to Rs. 3,263 crore and hold on its market share, reversing the declining trend of previous years. We have been able to increase volume in the 64mm segment against aggressive competitive moves, but kept a balanced mix of the lower margin 64mm and the higher margin 69mm segments.

Despite the challenging scenario faced by it, your Company is aiming for steady growth through balanced brand portfolio, consumer centric working, quicker response to environmental changes and data-driven decision making process. We are also working on strengthening our main brand franchises by improving imagery on consumer relevant parameters and adopting new research tools & methodologies to test consumer relevant concepts. Multiple cross-functional integrated projects are currently underway towards making our brands consumer centric in the market place by delivering superior product experience and thereby winning consumer confidence.

### Tea

Your Company's domestic tea business progressed well on its path of resurgence, posting overall net sales of Rs. 116 crore against Rs. 106 crore i.e. growth of almost 10 per cent over last year. The division focused on capturing the premiumization trend in the domestic market and extended its mainstay, the Supercup brand to develop the franchise and participated in the upper mid-premium segment by launching Supercup Gold and Supercup Premium, continued expanding presence in alternate high-growth channels like modern trade, institutions and home shopping. Further concerted effort helped the team to grow its premium offering Symphony by 12 per cent in the domestic market. With an aim of strengthening our quality focus, your Company implemented the Kaizen and 5S systems at both its factories at Kolkata and Bazpur.

### Exports

The following table shows the status of exports for different products during the year under report:

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The preparation of the financial statements requires the Management of the Company to make estimates and assumptions that affect the reported balance of assets and liabilities, revenues and expenses and disclosures relating to contingent liabilities. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results may differ from these estimates. Any revision to the accounting estimates or difference between the estimates and the actual results are recognised in the periods in which the results are known/materialise or the estimates are revised.

The consolidated financial statements have been prepared on accrual basis under the historical cost convention.

a) Principles of consolidation

The consolidated financial statements relate to Godfrey Phillips India Limited ('the Company') and its subsidiary companies. The consolidated financial statements have been prepared on the following basis:

- The financial statements of the Company and its subsidiary companies have been combined on a line by line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses.
- The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements
- The excess of cost to the Company of its investment in a subsidiary company over the Company's portion of the equity of the subsidiary at the date on which investment in subsidiary is made is recognized in the consolidated financial statements as goodwill.

b) The subsidiaries (which along with Godfrey Phillips India Limited, the Parent, constitute the Group) considered in the preparation of these consolidated financial statements are:

These Consolidated Financial Statements are based, in so far as they relate to amounts included in respect of subsidiaries and associates, on the audited financial statements prepared for consolidation in accordance with the requirements of Accounting Standard 21(AS 21)-"Consolidated Financial Statements" and Accounting Standard 23 (AS 23)- "Accounting for Investments in Associates" by each of the aforesaid entities.

## 2. SIGNIFICANT ACCOUNTING POLICIES

(i) **Use of estimates**

The preparation of the consolidated financial statements requires the Management of the Group to make estimates and assumptions that affect the reported balance of assets and liabilities, revenues and expenses and disclosures relating to contingent liabilities. The Management believes that the estimates used in preparation of the consolidated financial statements are prudent and reasonable. Future results may differ from these estimates. Any revision to the accounting estimates or difference between the estimates and the actual results are recognised in the periods in which the results are known/materialise or the estimates are revised.

(ii) **Inventories**

Inventories are valued at lower of cost and net realisable value except stores and spare parts which are valued at cost or under. The cost of raw materials, stores and spares and traded goods is determined on moving weighted average cost basis. The cost of finished goods and work-in-process is determined on standard absorption cost basis which approximates actual costs. Absorption cost comprises raw materials cost, direct wages, appropriate share of production overheads and applicable excise duty paid/payable thereon.

(iii) **Cash and cash equivalents**

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(iv) **Cash flow statement**

Cash flows are reported using the indirect method, whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. (The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.)

(v) **Revenue recognition**

Sale of goods is recognised at the point of dispatch of goods to customers. Sales are inclusive of excise duty where applicable but exclusive of sales tax/value added tax.

(vi) **Other income**

Income from investments and interest income is accounted for on accrual basis. Dividend income is accounted for when the right to receive it is established.

(vii) **Fixed assets and depreciation**

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and include interest on loans attributable to the acquisition of qualifying assets upto the date they are ready for their intended use.

No amortization is done in respect of leasehold land in view of the lease being perpetual.

Depreciation in the accounts is charged on the straight line method at the higher of the rates prescribed under the Companies Act, 1956 or the accelerated rates determined based on their useful lives as per technical estimates of the Management, and is calculated on a full year basis on additions during the year and no depreciation is provided on assets deleted during the year. Assets, other than items costing upto Rs. 5000 each, are depreciated upto 95% of their value and 5% residual value is retained in the books.

The rates applied are as follows:-

Buildings -Other than factory	1.63%
-Factory	3.34%
Plant and machinery	4.75%/10.34%
Electrical installation and office equipments	4.75%/5.15%
Furniture and fixtures	6.33%
Computers, information technology equipments and computer software	16.21%
Motor vehicles	9.50%

- Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest, if any.
- (viii) **Foreign currency transactions**  
Transactions in foreign currency are recorded at the exchange rates prevailing at the time of transactions. Gains/losses on settlement of the transactions are taken to the statement of profit and loss. The monetary items are translated at the year end rates and the gains/losses are taken to the statement of profit and loss.  
The difference between the forward rate and the exchange rate at the date of the forward contract transaction is recognised as income or expense over the life of the contract in the statement of profit and loss. The exchange difference on such contracts i.e. difference between the exchange rate at the reporting/settlement date and the exchange rate on the date of inception of the contract/the last reporting date, is recognised as income or expense for the period.
- (ix) **Investments**  
Long-term investments are carried individually at cost less provision for diminution, if any, other than temporary. Current investments are carried individually at the lower of cost and fair value.
- (x) **Employee benefits**  
The Group has various schemes of employee benefits such as provident fund, superannuation fund and gratuity fund duly recognised by the Income-tax authorities. The funds are administered through trustees and the Group's contributions are charged against the revenue every year. Accrued liability for gratuity and compensated absences on retirement are determined on the basis of actuarial valuation at the end of the financial year.
- (xi) **Earnings per share**  
Basic earnings per share is computed by dividing the profit/(loss) after tax by the weighted average number of equity shares outstanding during the year.
- (xii) **Taxes on income**  
Provision for current tax for the period is based on taxable income computed in accordance with the provisions of the Income-tax Act, 1961.  
Deferred tax is recognised, subject to the consideration of prudence, on timing differences between taxable income and accounting income and is measured using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date.  
Deferred tax assets on unabsorbed depreciation and carry forward of losses is not recognised unless there is virtual certainty that there will be sufficient future taxable income available to realize such assets.
- (xiii) **Research and development expenditure**  
Research and development expenditure is charged to revenue under the natural heads of account in the year in which it is incurred. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Fixed assets and depreciation.
- (xiv) **Proposed dividends**  
Dividends proposed by the directors as appropriation of profits are provided for in the books of account, pending approval of shareholders at the annual general meeting.
- (xv) **Operating cycle**  
Based on the nature of products/activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.
- (xvi) **Investment subsidiaries**  
Income recognition, assets classification and provisioning are done in accordance with the prudential norms/guidelines issued by the Reserve Bank of India from time to time for Non-Banking Financial Companies.

**Segment accounting policies:**

In addition to the significant accounting policies applicable to the business segments as set out in Note 2, the accounting policies in relation to segment accounting are as under:

a) Segment revenue and expenses:

Segment revenue and expense only include items directly attributable to the segment. They do not include income from or loss on investments (other than relating to the business activity of the investment subsidiaries), interest income from inter-corporate deposits and loans given, finance cost, donations and provision for taxation (current and deferred tax). Since the corporate office of the Parent Company primarily caters to the cigarette and tobacco products segment, its expenses have been considered to be attributable to the same.

b) Segment assets and liabilities:

All segment assets and liabilities are directly attributable to the segment.

Segment assets include all operating assets used by the segment and consist principally of net fixed assets, inventories, sundry debtors, loans and advances and operating cash and bank balances. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets and liabilities do not include investments (other than those held by the investment subsidiaries), inter-corporate deposits and loans given, bank balances for unclaimed dividend and fixed deposits, unclaimed interest, share capital, reserves and surplus, loan funds, dividends payable and income-tax (current and deferred tax).
